

REPLACEMENT OF ELECTRONIC BOARDS ERF2021 WITH PART NO. 2425138xx

The electronic boards ERF2021 listed in Tab. A have been modified in the area of connector **J2** since the key **K** has been eliminated as indicated in Fig. 1.

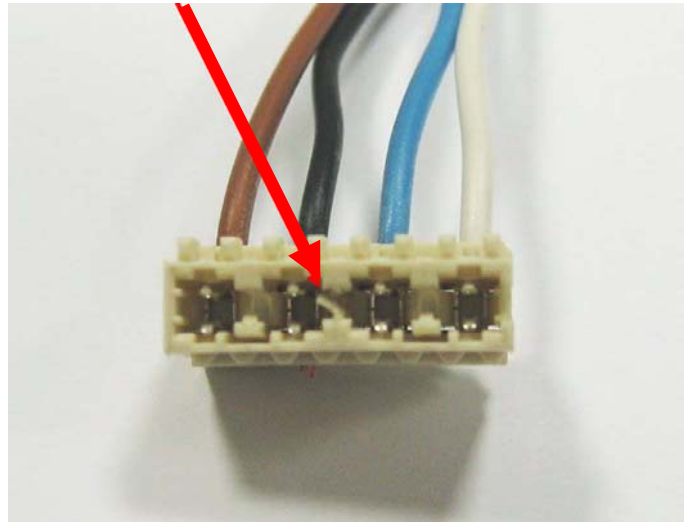

Figure 1

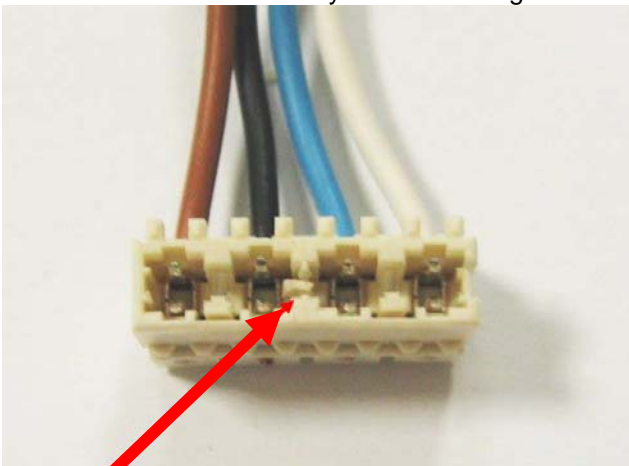

Together with the modification to the electronic boards also the connectors of the electric wiring have been replaced. Therefore, in case of replacement of the old electronic boards with the new ones in the appliances with serial no. previous to 711xxxxx, it is necessary to modify the connector **J2** as follows:

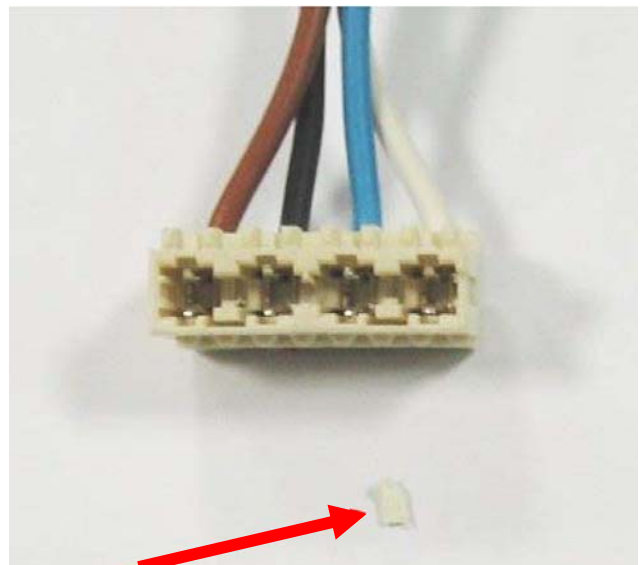

a) Identify the plastic tab positioned inside the 4-pole connector **J2** as indicated by the arrow in figure.

b) Using a cutter make a long cut along the upper part.

c) Make a long cut along the lower part.

d) Remove the plastic tab from the connector.

ATTENTION: Be sure that the electric contacts are not damaged.
